The Unique Smartphone App Offers Online Dispute Resolution for Refugees Worldwide & Everyone is Welcome to Contribute in its Success!

ODR 4 Refugees is an all new online dispute resolution smartphone application that is absolutely free for all the refugees of the world. The primary idea behind the creation of this one of a kind smartphone application was to create a dispute resolution mechanism that is also technologically sophisticated and free of cost for the refugees who are on the move or reside temporarily in refugee camps all over the world.

“We have been monitoring the [refugee crisis](#) in Greece for the past two years and we have noticed that refugees had no access to dispute resolution mechanisms but they all had third generation smartphones.” Said the creator of this app while launching the crowdfunding campaign. “Therefore, we thought that smartphones could be the “fourth” party in offering refugees online dispute resolution services.” he added. In addition, the app is easy to use and has several great features as well.

The creators of this amazing app are now seeking community support and are welcoming the entire humanity to back this inspiring project by making pledges and donations via Indiegogo.
